**First Announcement (2019-05-30)**

**All participants are requested to pre-register for the conference as early as possible in the format provided.** This will help us to plan and make necessary arrangements well in advance.

**Conference Theme:**

The main aim of this conference is to contribute to the development of mathematical sciences, and their applications and to bring together the members of the mathematics community, interdisciplinary researchers, educators, mathematicians, statisticians, and computer scientists from all over the world. The conference will present new results and future challenges, in series of invited and short communications (both oral and poster). Arranged some special sessions on Algebra and related topics during the conference.

The main object is to bring together those researchers working in various areas of research related to mathematics. We list here (but not restricted to) some topics of the conference.

- Algebra (Rings / Modules / Gamma Nearings, etc.)
- Coding Theory
- Discrete Mathematics
- Analysis
- Topology & Functional Analysis
- Graph Theory & Combinatorics
- Differential Equations
- Fluid Dynamics
- Fuzzy sets & Systems
- Rough set theory

**Committee:**

Prof. P.V. Arunachalam, Founder Vice-Chancellor, Dravidian University, AP., India (Honorary Advisor)

Dr Bhavanari Satyanarayana, Chairperson Scientific Committee

Dr S. Eswaraiyah Setty, Convener & Member Scientific Committee

Dr Kuncham Syam Prasad, Member Scientific Committee

Dr Kedukodi Babushri Srinivas, Member Scientific Committee

## Keynote Speaker

- Dr P.V. Arunachalam, Former VC, Dravidian University, AP. & Professor (Rtd.), SV University, AP.

## Plenary Speakers: (This list will be updated)

- Dr Bhavanari Satyanarayana, Professor, Acharya Nagarjuna University
- Dr G. L. Booth, Nelson Mandela Metropolitan University, South Africa
